A TOUR OF LONDON

From the Abbey take a bus up to Oxford Circus and then take the Bakerloo line on the tube to Madame Tussaud's London famous wax work museum. It's a full day but you will see the best of London. You should start at the Tower of London as soon as it opens to avoid the monstrous lines. This ancient fortress, founded by William the Conqueror 1,000 years ago, is Britain's most popular tourist attraction. There you can see the crown jewels, visit the White Tower with its impressive display of ancient armor and see great views of Tower Bridge. Which is close by. After dinner, take a bus to see a floodlit Saint Paul's cathedral. Designed by Sir Christopher Wren and built in the seventeenth century, it has been the setting for famous funerals, from Nelson, to Princess Diana, and for many happier royal celebrations.
